LONG-RANGE FINANCIAL PLAN

- ❖ Important to take a longer outlook on financial and budget issues.
- ❖ Consistent with our longer range capital planning process.
- ❖ The Plan is based upon assumptions. The nature of long range budget forecasting is conservative and cumulative.
- ❖ Deficits beginning in FY2026 ranging from \$3.3M to \$27.7 million in FY2029, representing a structural gap between revenue growth of 3% and expenditure growth of 5%.
- ❖ Our goal is to eliminate that gap in a way that balances revenue growth and expenditure control.
